White Kaolin Clay

Kaolin clay is a fine, soft clay. It is commonly used in soaps, face and body masks, bath treatments, powders, mineral makeup, body products, shaving products and bath bombs. Particularly softening and rich in silica, this clay is recommended as a facial mask, to get rid of impurities from the skin while purifying and cleansing it, perfect for all soft and delicate skin. Its virtues are numerous and its applications multiple, which makes it the essential ingredient for various cosmetic preparations. It is used as a thickening and binding agent, it thickens and hardens formulas and bath bombs. Its color is soft white to grayish

White Kaolin Clay is ideal for making:

- soap
- bath bombs
- body products
- creams and lotions
- and much more...
- face masks
- scrub
- face and skin care
- hair care

Uses

Clay per 454g of bath bomb mix:
0.5g White Kaolin Clay

Melt and pour soap: Clay mix per 454g of soap base:
1.5g White Kaolin Clay
15ml isopropyl alcohol 99%

Cold and hot saponified soap: Clay mix per 454g of soap base:
3g of White Kaolin Clay
30ml distilled water

As a mask:
Put White Kaolin Clay in a non-metallic dish, pour lukewarm water, stir until you get a creamy consistency, apply to your skin and leave on for 5-20 minutes, rinse and pat dry.

Recommendations

The dosage suggested above is for information only more or less can be used according to your recipes we suggest you always carry out final tests with your products.

The clay should be mixed with water before adding to the cold and hot soap. This extra amount of water in your soap will help mix the clay into the soap paste and will also prevent the clay from cracking your soap. More or less clay can be added to your bases to achieve the desired color. Our white kaolin clay is natural and does not contain any coloring, it is a very pale colored powder, which will give a soft white to grayish color to your soaps depending on the color of your oils.

This product is not intended to prevent, diagnose, treat or cure any disease. For external use only. Our clays are intended for cosmetic purposes. Under no circumstances do we recommend that they be considered as food or for medicinal purposes or medical application.
Store this product in a dry place away from direct sunlight.
Store it in an airtight container.
Never use a spoon or any wet or damp utensil to remove the powder from its container.
Avoid metallic instruments and dishes to avoid any reaction with the clay.
Keep the clay away from moisture.
